Dear Andrew ,

Thank you for registering for "In Plain Sight: Funding Body-Worn Cameras and Other Video-Based Policing Initiatives - Sponsored by WatchGuard".

The use of video surveillance in policing has a long and established history. However, recent events involving officers and citizens, fueled by the Internet and proliferation of social media have converged to catapult body-worn cameras (BWCs) and other video monitoring techniques into the public consciousness. As the numerous benefits associated with BWCs, in-car video and the evidence it provides comes to light, the law enforcement community and the public they serve are reaching a consensus that BWCs and other video applications are a core component of 21st Century policing and beyond.

As the demand for such video increases exponentially over the next several years, police departments and other law enforcement agencies must find a way to fund the implementation of BWC programs. A comprehensive BWC program is more than purchasing cameras, as it involves the crafting and implementation of policies and procedures, officer training, digital evidence management and public outreach.

Join Grants Office, LLC and WatchGuard Video as we explore various grant programs that will fund BWCs, as well as other solutions such as in-car video. In addition to gaining an understanding of the funding available and tips to secure grants, participants will learn about the latest and greatest video technology available to public safety agencies.
